Legion Again Protests Evictions in Edmonton As Veteran Ordered Out

Case of an Edmonton war veteran, with an invalid wife, who faces eviction under court order on Oct. 27, despite a doctor's certificate stating that exposure might have serious results to the woman, was the chief topic of discussion at the regular monthly meeting of Edmonton Branch No. 24 of the Canadian Legion, B.C.S.L., Thursday, in the Memorial Hall.

A telegram urging government intervention to prevent eviction is being dispatched by the branch to Hon. James A. MacKinnon, minister of trade and commerce and Liberal member of parliament for Edmonton West, Mr. MacKinnon has already assured the Edmonton Legion branch he is bringing the matter of evictions in Edmonton to the attention of the government.

Secretary-Manager W. Williams described the circumstances of the present case to the membership. The war veteran involved has worked in a reasonable capacity at a large packing plant for 17½ years. He and his family have lived in their present residence for three and one-half years, and have been paying \$25 a month rent. In serving notice to vacate on the tenants the landlord, Mr. Williams, wished to install a bathroom. The tenants have not asked that a bathroom be installed. Mr. Williams told the meeting.

COURT ORDER ISSUED

A court order for eviction has been issued, the secretary-manager said, despite the fact the Legion secured a certificate from an Edmonton physician, stating that the ex-serviceman's invalid wife is ill and that any sudden exposure to the elements is likely to result in serious impairment, to her health.

The doctor's letter and certificate were shown to the sheriff, but the latter stated he is powerless to take any other action than that ordered by the court. The sheriff has agreed, however, to have representatives of the Legion accompany him to the residence on the day that the order is to be enforced.

In the meantime Legion members are hopeful the federal government will take some action which will stay eviction proceedings. Mayor John Fry has already recommended that the government make some kind of a freeze order about rentals while the present serious housing emergency lasts in the city.

Two other matters touching on the welfare of soldiers and discharged soldiers were subjects of resolutions.

One resolution, introduced by vice-president J. MacDonald, asked that the government remove necessity for coupons in cases where rationed articles, such as tea, coffee, butter and the like, are sent in Christmas parcels to servicemen overseas.

SOME FAMILIES BENEFIT

It was pointed out by Mr. McDonald that present regulations operate to the selfish benefit of families who have no members on

active service, whereas wives and widows in some cases must sacrifice their monthly rations to send gifts to loved ones overseas.

Another resolution urged that fees of all discharged servicemen and servicewomen and of those home on leave from overseas be paid to the home cities or nearest to home centres by the government.

Now that Edmonton is no longer a military depot district there have been cases of troops coming from overseas for discharge, who have had to pay their own rail fares and board from Calgary to points as far north as Grande Prairie. They were discharged at Calgary and left on their own even although they had enlisted at other points far distant.

Edmonton military officers have admitted the injustice of such cases but are powerless to do anything under present regulations. It was stated. It was also stated that a letter from the Legion branch here to Ottawa urging action by the government to remedy this situation has not been answered as yet.

CLAIMS DISCRIMINATION

Alb. E. Garney told the meeting he thought the present regulations discharging all returned soldiers at Calgary is a disgraceful discrimination against Edmonton and most unjust to men who have enlisted in other parts of the province.

Three chapters in the bylaws governing the Edmonton Legion branch were approved after being read by W. Irwin, head of a bylaws committee.

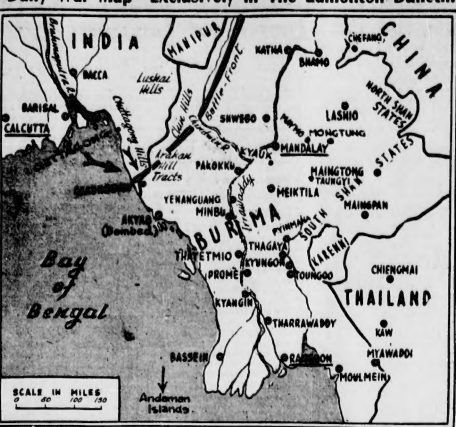

Regular monthly meeting of the Legion branch will be henceforth held on the third Sunday of each month instead of on the third Thursday. Under the new bylaws, meetings will start at 2:30 and end by 5 p.m. each Sunday.

There are three reasons for the change. The main hall, where meetings are being held since alterations to the building, can be rented each night in the week. A considerable amount of revenue is involved. There are now plans to show educational movies in the main hall and in addition many members are busy at war jobs that make attendance on a week night difficult.

Another bylaw gives authority to increase the number on the branch executive from six to nine. As and when pressure of membership warrants, the executive is empowered to add representatives from the Navy, the Air Force and the C.W.

Incoming members must now pay

Daily War Map—Exclusively in the Edmonton Bulletin

The Allied forces on the Burmese frontier are reported to have successfully attacked Maungdaw with mortar fire after Allied patrols had advanced. Medium bombers made a series of daylight raids against Ayakab and a railway station south of Maungdaw, starting large fires. It is likely

that this attack will be followed by more amphibious operations directed against Rangoon and possibly against the mainland southeast of Rangoon with a view to cutting across the isthmus of Kra to the south of Siam and working southward down to the Malay peninsula towards Singapore as the Japanese did.

2 Teen-Age Girls In Knife Fight For Married Man

LOS ANGELES, Oct. 22.—Two teen-age girls, jousting over the affections of a married man, engaged in a "moonlight hand-to-hand knife fight" in which both combatants were injured, was related yesterday by Detective Lieut. William G. Marr.

The struggle, the detective said, was fought in the presence of "seconds" for each attractive belligerent. Identity of the married man was not revealed. Marr added, "The girl with the deep arm wounds is Doris Rhoads, 17, a telephone operator who has been hospitalized with deep arm wounds, nursing various nickers on her hands; is Betty Reeves, 18, a drugstore clerk.

34, or membership dues for one year before being admitted to the branch.

Formerly the bylaws permitted a down-payment of \$1, which actually entitled the member to nine months of benefits before the dues were dropped for non-payment of dues.

1,308 MEMBERS
The branch now has paid up membership of 1,308, largest in history.

Percy Gwynne, reporting for the servicemen's rehabilitation committee, said Mrs. Goddard and Mrs. Parker, from the central council of women's war activities, are now serving on the rehabilitation committee.

Final plans were made for participation in the Victory Loan parade of Friday evening.

It was announced that Premier Ernest Manning will proclaim Nov. 11 a day of remembrance for the dead of the First Great War, although it will not be an official holiday.

Plans are complete for the annual poppy day on Saturday, Nov. 6. President E. E. Tanner was in the chair.

Calgary to Send Trade Delegates To Coast Parley
CALGARY, Oct. 22.—(CP)—The Calgary board of trade will send 10 representatives to the joint conference of businessmen paid for and produced by the people at home has also up magnificently in the hands of the Sicilian and Italian campaigns.

Besides the 10 years in England Canadian-made equipment, vehicles particularly, has kept the army here ready to move against invasion or prepare it for maneuvers and in intensive training for the tests that face an expeditionary force.

Trucks from Canadian factories have gone thousands and thousands of miles over terrible mountain roads through Sicily and southern and central Italy, and breakdowns have been amazingly few.

Vigorous Reply Morrison Asserts Britain To Share War in Pacific, Raps American Criticism

LONDON, Oct. 22.—(CP)—Home Secretary Morrison addressing the Anglo-American Press Association in London, assured the United States that Britain would share the burden of a Pacific war, and then pitched into a vigorous retort to American critics of the British Empire.

"I believe," he said, "that the facts warrant the statement that every common-sense Britisher is capable of exercising self-government has had it. If this process of political development has not gone further the reason is certainly not lack of willingness on our part."

That was the climax to his words when the Home Secretary called the "permanent skeleton in the Anglo-American cupboard."

THINK EMPIRE DATED
The point of view of the genuine critics of very like that of our own and of 30 or 40 years ago. . . they think that the very idea of an Empire is out of date. The only mild retort I would make is that their idea of an empire certainly is.

It was not British which forbade self-government in India. It was the all-India Congress and the Moslem League.

"A considerable difference in some features of the Colonial Empire. I find it difficult to persuade myself that it is necessary to administer colonies in order to make handsome profits out of their people."

Plans enterprise, he said, was no longer relied upon for the economic well-being of British colonies. "If colony cannot itself pay for the capital and development works, the industrial and technical improvements it needs the necessary resources must so far as practicable be supplied from British funds."

PRINCIPLE OF ACT
"That is the principle of the Colonial Development and Welfare Act passed in 1940, the darkest year of the war. Even under all the wartime difficulties in finding material and staff we have begun to get to work under this Act."

Vote to Remove Ban on Chinese
WASHINGTON, Oct. 22.—(AP)—The House of Representatives voted yesterday to repeal the 61-year-old Chinese Exclusion Act and permit immigration of 100 Chinese into the United States annually on a quota basis. The legislation also amends naturalization laws to permit Chinese to become American citizens. The bill now goes to the Senate.

Canada-Made Equipment Meeting Test in Field
By ROSS MUNRO
LONDON, Oct. 22.—(CP)—Canadian equipment paid for and produced by the people at home has also up magnificently in the hands of the Sicilian and Italian campaigns.

Besides the 10 years in England Canadian-made equipment, vehicles particularly, has kept the army here ready to move against invasion or prepare it for maneuvers and in intensive training for the tests that face an expeditionary force.

Trucks from Canadian factories have gone thousands and thousands of miles over terrible mountain roads through Sicily and southern and central Italy, and breakdowns have been amazingly few.

Soldiers at the front don't forget the thousands of workers behind them at home and the people who loan their savings to the war effort. They know well that from their savings come the equipment with which they fight. Their progress is measured in many cases by the support they receive from the Canadians in Canada.

Edmonton Sea Cadet Corps Inaugurates Drive to Obtain Aggregate of 500 Recruits

With an enviable record of contribution to the parent service established in the present war, the Edmonton Corps of the Royal Canadian Sea Cadets, announced Friday the inauguration of an intensive drive for recruits, the objective of which is to obtain 500 boys.

The sea cadet movement in western Canada is expanding under the sponsorship of the Royal Canadian Mounted Police. Already 225 cadets have enlisted in the R.C.M.V.P. from the Edmonton Corps.

Recruits must be between the ages of 13 to 17 inclusive, must be more than five feet one inch in height, and weigh more than 100 pounds. Uniforms are supplied to the cadets free and are similar to those worn by the R.C.N.V.R.

The cadets' recreating centre is situated in the Royal Canadian Mounted Police barracks, 9722 102 street and is open Tuesday and Friday from 7:30 to 9:00 p.m. SC. Lt. J. A. Weber is in charge.

Cadets are given two weeks' training in the summer months at the R.C.N.V.R. training camp at Lake Wakarusa. The camp is conducted under the supervision of R.C.N.V.R. personnel who supply the instructors and assist with training.

AIR TRAINING SCHEDULE

Training schedule includes, squad drill, rifle, target practice, guard and sentry duty and seamanship. Under seamanship the boys learn, bends and bitches, elementary navigation, parts of ships, destroyers, frigates, corvettes, elementary anchor, and cable, hammock slinging, compass and helm, and boat work. Swimming is taught and lectures are accompanied by motion pictures.

Cadets who finish their training have excellent foundation for navy or merchant marine service. There is an excellent chance for advancement in the Sea Cadet Corps. During the winter months parades are held twice weekly, Tuesday and Fridays from 7:30 p.m. to 9:00 at the naval barracks.

ABSORB TRADITIONS

Boys who join the sea cadets in addition to their practical training are instilled with those traditions of courage, patriotism, and devotion to duty, which have for centuries distinguished British Empire naval history.

The Sea Cadet band under SC. Lt. Courtney, which is one of the smartest bands in the city has many openings for those interested.

The German enemy—his murder of innocent civilians, the peaceful farm buildings and crops they have destroyed, the homes they have ruined. The people at home should see these things.

He said the 5th army is a smooth-running machine with the finest kind of co-operation between Britons and Americans.

Netherlands call oranges "si-naasappel" or Messina apples.

"I am much struck by the young British and American soldiers," he said. "Their faces seemed so alert and they were so evidently in the pink of condition that their seem to be ready for anything."

The secretary voiced horror over the sufferings of the Italians and declared:

"All day I was impressed with the evidence of the ruthlessness of the Italian Fascist regime."

He added that he would prefer "a considerable difference in some features of the Colonial Empire. I find it difficult to persuade myself that it is necessary to administer colonies in order to make handsome profits out of their people."

Plans enterprise, he said, was no longer relied upon for the economic well-being of British colonies. "If colony cannot itself pay for the capital and development works, the industrial and technical improvements it needs the necessary resources must so far as practicable be supplied from British funds."

PRINCIPLE OF ACT
"That is the principle of the Colonial Development and Welfare Act passed in 1940, the darkest year of the war. Even under all the wartime difficulties in finding material and staff we have begun to get to work under this Act."

Vote to Remove Ban on Chinese
WASHINGTON, Oct. 22.—(AP)—The House of Representatives voted yesterday to repeal the 61-year-old Chinese Exclusion Act and permit immigration of 100 Chinese into the United States annually on a quota basis. The legislation also amends naturalization laws to permit Chinese to become American citizens. The bill now goes to the Senate.

Canada-Made Equipment Meeting Test in Field
By ROSS MUNRO
LONDON, Oct. 22.—(CP)—Canadian equipment paid for and produced by the people at home has also up magnificently in the hands of the Sicilian and Italian campaigns.

Besides the 10 years in England Canadian-made equipment, vehicles particularly, has kept the army here ready to move against invasion or prepare it for maneuvers and in intensive training for the tests that face an expeditionary force.

Trucks from Canadian factories have gone thousands and thousands of miles over terrible mountain roads through Sicily and southern and central Italy, and breakdowns have been amazingly few.

Soldiers at the front don't forget the thousands of workers behind them at home and the people who loan their savings to the war effort. They know well that from their savings come the equipment with which they fight. Their progress is measured in many cases by the support they receive from the Canadians in Canada.

Motorists Warned To Check Vehicles

The condition of brakes and tires has more to do with traffic hazards than has driving speed.

Police authorities give warning to motorists to check the mechanical condition of their autos before winter makes the streets dangerous. Direct evidence shows that at the government recommended speed of 30 miles an hour, they are rolling along the pavement at about 44 feet a second; at that speed it requires 100 feet to stop a car on dry pavement, police warn.

At 20 miles an hour a car is moving at 29 feet a second, and with good brakes needs 50 feet in which to stop. Minimum stopping distance at 30 miles an hour, is 73 feet.

"Leave Tires"

SALT LAKE CITY, Oct. 22.—(AP)—Thieves stripped Glen Howarth's automobile of log lights, mirror, grill guard, ash tray, gear shift knob, cigarette lighter, seal covers and a gasoline tank cap but they left the tires.

Scott's Emulsion

Elderly people are playing an important part in life today. As a valuable aid in building up their resistance to colds and common winter ills as well as helping the body recuperate when run-down, the regular use of Scott's Emulsion is highly recommended. Because it is so rich in vital, build-up elements everyone needs, this pleasant-tasting, economical tonic is an ideal food supplement for older people. In addition, Scott's is emulsified by an exclusive process which makes it easy to digest even for the most delicate systems.

Rich in natural Vitamins A and D, Scott's Emulsion is highly recommended as a valuable year-round tonic for young and old. Buy a large, economical bottle today—all druggists.

SCOTT'S EMULSION
A Great War Round Tonic For All Ages

**WAR ALCOHOL
PLAYS ITS PART**

There goes a barrel of grief for Hitler
... a dose of concentrated high explosive to blast some skunk U boat into sudden oblivion. Relentlessly, month after month, the grim submarine goes on ... and in that hunt of death, Alcohol has its part to play. The explosive with which the "ash cans" are charged utilizes War Alcohol; even the propellant that lobs the depth charge overboard contains this same critical war material. Alcohol is proving its worth in this vital war work ... in the factory, the laboratory, on the field of battle itself. To make explosives and plastics, a tremendous quantity of Alcohol is needed. Aerial compasses and other delicate instruments are sealed in alcohol. As a practical disinfectant, Alcohol is the constant ally of doctors and nurses. In the welding of our fighting machines, Alcohol has a myriad of uses; every ounce that can be produced is needed now. That is why all our plants are on 100% war production, for the duration.

GOODERHAM & WORTS, LIMITED

Testify Count Had 'Wild Look' After Murder

By E. V. JONES

NAASAU, Bahamas, Oct. 22.—(AP)—In his first direct testimony in the link Alfred de Marigny with the murder of Sir Harry Oakes, the crown prosecutor today testified in a dramatic and colorful manner to place the hands of the defendant near his father-in-law's estate last July about the time the Canadian business millionaire was beaten and burned to death.

And from a native constable he produced a statement that de Marigny appeared, a few hours later, looking "excited and mad" and with a "wild look" in his eyes.

Attorney General Eric Hallinan played his cards carefully to draw out the jury the significance of his disclosures.

TELLS OF VISIT
It was Constable Wendell Parker who told of a visit by de Marigny to the police station about 7:30 a.m. July 8.

"I was struck by his appearance," the tall, formed man testified. "He seemed excited and mad."

"What struck you about his appearance?" asked A. F. Alderley, special prosecutor.

"His eyes appeared wild, and his lips protruded," Parker replied, adding that de Marigny inquired about the necessity of bringing a truck for inspection.

Nazi Loss Heavy In Norway Raid
STOCKHOLM, Oct. 22.—(AP)—Hundreds of German soldiers were reported last night to have been drowned and from three to nine German ships sunk in the Norwegian coast.

Swedish planes during the Allied sea raid Oct. 4 in the Bodo region of Norway.

A Norwegian underground newspaper newly received here said Nazi officers were taken into action as "the greatest catastrophe ever suffered by German shipping."

German planes during the Allied sea raid Oct. 4 in the Bodo region of Norway.

The air ministry announced Oct. 5 that planes from a United States carrier attached to the British home fleet had scored hits on eight merchant ships and three other vessels in the raid, which cost three planes.

The communiqué did not claim the vessels as sunk.

A French prisoner who escaped from a Nazi labor camp in Norway said the German soldiers were drowned in the sinking of the transports. He said a panic swept Bodo after the raid and many German soldiers who escaped died.

4 Polish Groups Will Co-Operate Until After War
LONDON, Oct. 22.—(CP)—The Polish government announced yesterday underground representatives of the four main parties in occupied Poland have agreed to act together until a proper constitutional legislature is restored by democratic elections after Poland is liberated from Nazi rule.

Parties represented are Peasant, Socialist, National and Christian Democratic Labor—each group from which form the coalition cabinet.

The agreement called for a federation of European states, around the nucleus of a Poland-Czechoslovak union.

The catalyst accelerates a plan from 20 to 70 m.p.h. within 40 feet.

PRIVATE BREGER ABROAD

"He only attacks whole battalions, since he heard there's safety in numbers!"

District News in Brief

Tim Buck Meetings Attract Hecklers
RIMBEY—Tim Buck, Dominion Labor Party leader, was heckled by party apoke here Sunday and at Sylvan Lake Tuesday. He was accompanied by James McPherson, provincial leader of the party, at both meetings.

Mr. Buck rapped the government and policies of M. J. Coldwell, C.C.F. leader. He criticized methods of sugar beet production, stating that all Canada's sugar needs could be met by enlarging the beet industry, instead of shipping at great risk the sugar cane product.

Question period followed the address, with members of the audience from Rimby taking part in the discussion.

On one occasion Mr. Buck said to a listener, "I know what I am talking about, you don't mean to say I am not speaking the truth?"

Answer: "I am not so sure about that."

Mr. Buck: "That is not true. You had better study your social economy."

Answer: "Who knows it all?"

Answer: "I know what I am pretty well informed on the matter."

Answer: "So am I."

Henry Lundgren of the Hoedley district, was chairman of the meeting.

Gleaned From Rural News
CLIVE—The Rev. and Mrs. F. Foster attended the funeral of Mrs. E. Sloan at Lacombe last week. Mr. Foster conducted the services, assisted by the Rev. G. Thompson of Lacombe.

Mr. Foster, who is pastor of the church of Clive and R. Wilkinson of Alx, both former Clive residents, were visiting in town last week. Mr. Wilkinson has joined the R.C.A.F.

Mr. F. Foster entertained members of the sewing club at a tea recently. The total raised for over 40 persons were examined. Staffs and pupils of schools, employees of local businesses and nurses were among those examined. The clinic was made possible by co-operation of the Alberta Tuberculosis Association, the department of health, and the Clive Tuberculosis Fund of Red Deer Rotary Club.

RED DEER—A feature of the fifth Victory Loan campaign here will be the appearance of Oct. 25 of the C.W.A.C. pipe and brass bands. The Knights of Columbus will be in the evening.

When the mobile X-ray unit of the provincial department of health visited Red Deer recently, 417 persons were examined. Staffs and pupils of schools, employees of local businesses and nurses were among those examined. The clinic was made possible by co-operation of the Alberta Tuberculosis Association, the department of health, and the Clive Tuberculosis Fund of Red Deer Rotary Club.

Reform Measures Are Said Useless

VANCOUVER, Oct. 22.—(CP)—R. H. Arthur Meighen, former Conservative prime minister of Canada, said yesterday at a service club meeting that what Canadians need most of all is to learn the old lessons of self-reliance and thrift.

He called upon them to cast aside the reform measures of modern government and to return to the "hickory stick" days of the past century.

Mr. Meighen declared that modern government plans for social security couldn't possibly assist in bringing order out of chaos in the nation.

"The thing of making work for people for the sake of making them work," he said, "is a waste of money to eliminate unemployment is a waste."

"The usual thing we read, that society will no longer tolerate unemployment, is as vain and as senseless as saying society will no longer tolerate disease," he added.

Pass Resolution On U.S. Policy

WASHINGTON, Oct. 22.—(AP)—The senate foreign relations committee approved without change yesterday the resolution of Senator Tom Connally (Dem.-Texas) pledging the United States to join with free and sovereign nations in the maintenance of world peace.

The resolution reads as follows: "Resolved by the senate of the United States: That the war against our enemies be waged until complete victory is achieved."

"That the United States co-operate with its comrades-in-arms in securing a just and honorable peace."

"That the United States, acting through its constitutional processes join with free and sovereign nations in the establishment and maintenance of international authority with power to prevent aggression and to preserve the peace of the world."

Woman Tied Up As Home Looted
MONTREAL, Oct. 22.—(CP)—A woman, resident of neighboring Westmount, was bound hand and foot and locked in her bathroom Monday by two youths who ransacked the house and made off with three diamond rings and money, total valued at \$2500. Two youths, found in an Ottawa hotel, were detained as suspects.

With Those In Uniform

FOREMOST—AC2 Carl Lukasevich and Sgt. Floyd George of the R.C.A.F. and Tor. Leo Brown of the army are home on leave.

LACOMBE—Robert Lawrence has been promoted to the rank of sergeant at the Camrose training centre. PO. Mervin Ussup leave with his parents. PO. Herbert Harrison of the U.S. Navy was a recent visitor here. Pie Bill Affick has been home on leave. W.I. R. Cook was on leave recently.

RED DEER—Sgt. Merle Olson of the U.S. Army Air Forces, son of Mrs. Florence Olson of Red Deer has been reported missing. As other son of Mrs. Olson, Sgt. Newell Olson, is serving overseas with the U.S. Army Air Force.

CLIVE—PO. D. Ditzler, who brought down two German planes during a raid on Edmonton, was the son of Mr. and Mrs. L. W. Ditzler of Clive. He went overseas in December.

CONRAD—Camrose, Col. Conrad of Camrose, visited Mr. and Mrs. R. K. Kase recently.

MARTIN—R.C.A.F. graduate from initial training school, according to word received by his parents, Mr. and Mrs. J. Martin.

B.C. after visiting here, Dan Lund has returned from Dawson Creek where he spent the summer. Bill Harrington has left for Ottawa after visiting here. George Han has arrived from New Westminster to visit his son.

The town council passed a by-law for compulsory closing of stores and businesses Wednesday afternoons, at the request of town. The bylaw will not be effective during December.

Introducing Edmonton's

SEA CADETS ...

*Sponsored by
the Navy
League of
Canada*

*Summer Camp
Scene at
Lake Wabamun*

BOYS

JOIN THE SEA CADETS

500 RECRUITS ARE NEEDED FOR THE SEA CADETS IMMEDIATELY! If you are between the ages of 13 to 17 inclusive, over 5 feet 1 inch in height and weigh over 100 lbs. you can qualify as a full fledged SEA CADET! Your chances of advancement in the Sea Cadet Corps are EXCELLENT! You will have full use of all R.C.N.V.R. training facilities and gain excellent foundation for navy or merchant marine service.

(However, when you join the Sea Cadets, you will not be obligated to enter the Senior Service when you become of age)

As a SEA CADET You Receive Valuable Training

• RIFLE DRILL • TARGET PRACTICE • SEAMANSHIP • PARTS OF A SHIP—
DESTROYERS, FRIGATES, CORVETTES, ETC. • SWIMMING, ETC.

The Bulletin's OPERATION SHOW by Hal Dean

IN THEIR final workout prior to Saturday night's football championship game against Calgary, the University of Alberta Juniors engaged in signal practice and pass defense at the Varsity ground on Thursday night. The Golden Bears' trio of passers—Jack Setters, Brian Dunsworth and Nori Nihilo—also received their last-minute grooming under Coach Tommy Hays.

The chalk talk scheduled for this evening has been cancelled as seven of the team are taking night trainings and will be in the Victory Loan parade which is scheduled for tonight.

Coach Hays announced Thursday that Everett Shippett would be unable to play due to illness. Gunn, who is from Calgary, and Shippett, whose home is in Edmonton were team-mates on the Arts-Con Law squad in the inter-collegiate league. The 17-year-old Shippett is a freshman Arts student and weighs 175 pounds.

John Jorgensen, manager of right at the university, stated last night that the visiting team along with Calgary Junior League and club efforts would be guests of the students at a luncheon at the Elbow Stadium and will commence at 2:30 p.m. The early start being requested by the Calgarys who plan to return home on the night train.

POCKY HULME HAS IDEAS
OUT VISIONS OF ACQUIRING A HARD hitting crew of ship-mates to represent the Navy, and apparently Pocky already considers the Equimail Bluejackets as the "BUY" team started on the Allan Cup tour.

The Navy is angling for a line consisting of Eddie Weir, Tony Lewis and Freddy Weaver. Only thing lacking so far is that Weir, the former Red Wing, is an officer in the Sea Cadet Corps at Calgary, Lewis is in the

Enthusiastic About Rookies Ross Is Far From Decided On Bruins' Definite Lineup

QUEBEC, Oct. 22.—(CP)—By GEORGE BURMAN
game against Montreal Canadiens barely more than a week away, manager Art Ross claims he still has some talk figuring to do before he settles on a definite lineup for the 1943-44 season. Regular Boston players and rookies have been in training since Oct. 13.

After Sunday's exhibition match against the Quebec Aces of the Quebec Senior League, Art was more than mildly enthusiastic about this season's crop of rookies, the majority of whom range from 18 to 19 years.

"They're the smartest bunch of youngsters I have seen in my 20 years in the N.H.L.," he gloated.

Perhaps the Boston player's toughest job will be to fill the goalie's paws of Frankie Bennett, rated one of last season's classic net-minders, who has joined the United States Coast Guard. Trying out for the position are low-headed Harvey Bennett, who played last year for the Oshawa Generals, and a new owner Maurice Courteau, formerly of the Washington Lions. A third man in the picture is Paul Emil Bileau, until this season Canadiens goalie.

On defense, the Bruins have Johnny Crawford, Flash Hollett, Harvey Jackson and team captain Dit Clapper of last year's pivot. Johnny Wilkinson, last year with the O.S.H.L. Ottawa Senators, has been teamed with Crawford in drills. Alas Stanley, a 17-year-old

Blizzards All Set for Alberta Grid Final Against Varsity Calgary Bringing All-Star Peg Hockeyist To Attend School And Play in N.Y.

Winnipeg, Oct. 22.—(CP)—F. J. Shero, a 17-year-old Winnipeg youngster, will not only play hockey in New York this season, but he's also going to keep up with his schooling.

Shero, a student at Isaac Newton high school in Winnipeg, signed yesterday to play with New York Rangers in the Eastern United States Amateur Hockey League. He also will attend school in the American metropolis.

"He's a crack-jack of a student," said Lester Patrick, manager of New York Rangers in the National Hockey League and head of the Rangers.

"In fact we're going to go out of our way to see that he gets the best schooling possible."

Shero is a product of St. James Canadian hockey chain of Winnipeg. He played midget and juvenile hockey for the Canadians and last year was a star performer with his juniors. He is also a capable football player and amateur boxer.

Lach Probably A Key Forward With Canadiens

MONTREAL, Oct. 22.—(CP)—Elmer Lach, the Montreal Canadiens forward, is likely to be one of the key men on the Canadiens' front line this season if he keeps up his pre-season form.

Lach was a bit of a question mark when the season started last year, the season before he was named as a forward when he skidded into the boards at the Forum, sent the rest of the season on the sidelines and was told he might never play hockey again.

He came back last year though, and wound up the season with 58 scoring points, one less than Toe Blake, who led all the Canadian skaters. Now he's talking about scoring 30 goals this season.

He had Joe Benoit with him last year though, and the loss might be a serious one because they made a grand combination. Benoit, native of St. Albert, Alta., has quit hockey to attend in his western business. Balanced against his loss is the new N.H.L. ruling allowing forward passing to the centre ice line. Such a rule seems made to order for Lach, a fast-breaking, quick-moving player.

Lach spent most of his time as a centre last year, interspersed with duty on left wing. Coach Dick Irvin isn't talking much about who's going to be there yet but one guess has it that Lach is tagged as a left-winger now and will be centred by Buddy O'Connor. Charlie Sands might fit into such a line at right wing, or Bernard Mearns, a rookie from the Quebec Senior Hockey League, who has looked good in practice.

This season will be his third in the N.H.L., and he's been on the sidelines, all spent with Canadiens. He broke into the big time in 1940, the year Canadiens produced a flock of outstanding rookies, including Johnny Quilty, Joe Benoit, Jack Adams, Butch Richards and Kenney Rendell. He came to Canadiens from Moose-Ju Mellers.

Watson Lake Team Guests at Smoker

Watson Lake B.C.A.F. softball team winners of the Northwest Staging Route League title were guests at a smoker held in the 40 guests' mess at No. 2 A.O.S. on Thursday night.

Starting his third season with the Hawks, he figures that despite his 20 years the coming campaign will be his best in hockey. He was a back stop when he came to the Hawks in 1941, but last year he came back strong to live up to his American Association record.

Glamor Circuit Is Now Pro Loop

CHICAGO, Oct. 22.—(CP)—Ken Selig, president of the All-American Girls' Softball Glamor League, said here Thursday that in future the circuit would be known as the All-American Girls' Professional League. "We're not playing with ball rules," Mr. Selig said, "so therefore the name we have been using is a bit out of line."

Lightweight Boxing Crown To Survivor, Angott-White

WASHINGTON, Oct. 22.—(AP)—The winner of the forthcoming bout between Sammy Angott and Silvester White in Los Angeles will be recognized by the National Boxing Association as the world lightweight champion, the association said last night in publishing its quarterly ratings in all weights.

"Fido" Purpur Most Stitched N.H.L. Player

MINNEAPOLIS, Oct. 22.—(CP)—The most "stitched" player of the National Hockey League is one of the 10 veterans working out here with Chicago Black Hawks.

He's Clifford (Fido) Purpur, 30-year-old native of Grand Forks, N.D., who had a meteoric career in the now defunct American Association before joining the Hawks as a regular in 1941.

Purpur has had 136 stitches taken in his face during a 15-year hockey campaign, most of them earned in 40 fights—most of them against his opponents he's spotted up to 200 pounds.

Compared to other N.H.L. stars, he's as big as a woman's handkerchief, but he's out and rough as a 200 pound native of Grand Forks. He was once described as the only hockey player tough enough to spot a wild cat on the first hit and still come out on top.

With St. Louis Flyers in the American Association in 1940, Purpur collected 40 goals and 22 assists to top the circuit's scoring.

Starting his third season with the Hawks, he figures that despite his 20 years the coming campaign will be his best in hockey. He was a back stop when he came to the Hawks in 1941, but last year he came back strong to live up to his American Association record.

Castloux Draws With L.A. Burnell

MONTREAL, Oct. 22.—(CP)—LAC George Burnell, smart western Canadian lightweight, held the Canadian championship LAC Dave Castloux—so a draw in a three-round exhibition bout here Wednesday night. It was part of a Canadian Legion benefit show.

By the middle of November, 1942, Britain had sent Russia enough equipment for 30 armored divisions on the German scale.

Junior Squad South Champs Adding Seven For Saturday

CALGARY, Oct. 22.—(CP)—Final strenuous workout in preparation for their provincial junior championship football game against University of Alberta Golden Bears at Edmonton, Saturday, was indulged in by North Hill Blizzards under floodlights at Mewata Stadium Thursday night.

After the practice, head coach Bob Harrison, one-time Calgary Bronks line-backer, stated the boys are in good physical condition, and ready for what they figure will be their greatest test of the season.

Assistant Coach Bill Work, an other former Bronks, and Manager Jack Grogan will be included in the party of 23 that leaves for the north Friday night.

Blizzards, augmented by six members of the west end Tornados and one from east end Stampede, form one of the strongest and best balanced junior grid squads ever to represent Calgary in an Alberta playoff. They have a triple threat backfield in Alvin Hammond, a Calgary youth and a sensational forward passer in Gordon Lines, of Chicago, who is a student at No. 2 Western school. Charlie Roe, another alumnus who hails from California, is on leave so will not be with the squad.

Blizzards dropped 1-17 and 0-11 decisions to Tornados during league play but downed last year's champions 24 and 11-2 in the two-game, total-point final series.

Dave Kaplan, formerly of Winnipeg Blue Bombers, is one of the 30 players who will be making the trip.

Calgaryans, who were treated to interesting, wide-open football this fall, are confident that Blizzards will end Edmonton's four year junior football reign.

Calura Defeats Havana Fighter

NEW ORLEANS, Oct. 22.—(CP)—Jackie Calura of Hamilton, Ont., headed back for another crack at the N.B.A. featherweight title last night August by decisively whipping Juan Villalba of Havana, Cuba here Wednesday night in a 10-round decision bout.

Darryl Matter, chairman of the Louisiana State Boxing Commission, said a return bout between Villalba and Calura "probably" would be held within the next three weeks.

LaPrade Brothers In Canadian Army

OTTAWA, Oct. 22.—(CP)—The LaPrade brothers, Raymond and Edgar, top-ranking amateur hockey stars and former members of the Port Arthur Beavers, 1939 Allan Cup champions, both have enlisted in the Canadian Army.

NEW YORK, Oct. 22.—Picking the football winners—maybe. East: Navy over Georgia Tech.—But don't risk the family jewels. Cornell over Colgate—says our dentist. Army over Yale.—Can't boot-heel this mule-kick. Pennsylvania over Columbia.—Lon Little's not in good voice. Pittsburgh over Bethany.—Where you from, kid? Penn State over Maryland.—Billy Soos sent to Penn State.

Training Camp Notes

By The Canadian Press

Somebody asked Coach Paul Thompson if the Chicago training camp in Minneapolis who is hockey world's most closely resembled basketball. Bill Dickey is not wasting effort doing the right thing at the right time. Paul thought of a moment. "Probably Dutch Kleck of Rangers," Paul said. "Why, in one year he got only about eight goals—but each of those goals was a game." Kleck retired from hockey several seasons ago.

Bryan Hall of New York Rangers claims the sudden transition from winter to summer is adversely when they transfer from New York's training camp in Winnipeg to N.H.L. hockey cities in the east. So far, the four teams—New York, Boston, Montreal and Chicago—have been in the east for a week. Coach Jack McDonald, Jack Mahon and Max Baer are staying in a Windsor, Ont. hotel these days. They'll work out with Cleveland Barons in the American League at Detroit.

Boston Bruins have been granted permission by Quebec military authorities to use the former Montreal Canadiens goal in an exhibition game against the Bruins in Quebec City. Bibeault is a lieutenant in district auxiliary services.

Speaking of Canadians, just about every rival coach selected the Canadians to finish first or second last season. It's starting all over again this year. Thompson of Chicago says the Canadians are the team to beat. "They have a lot of good players available."

Veteran Harold (Mush) Marsh is back with the Hawks after spending the summer as a golf professional at Hibbing, Minn. Another veteran in camp, Johnny Gottselig, spent the summer coaching Rangers (N.H.L.). Bellet to the A-American Girls' Softball League pennant.

Chief Maundrell, 180-pound right wing from Cornwall, Ont., arrived at the Toronto Maple Leaf camp in St. Catharines, Ont., Wednesday and started workouts yesterday. Formerly with Ottawa and Cornwall teams, Maundrell is an army reject. Manager Jack Adams is counting upon to bring Detroit Red Wings another worst championship, has been given a draft deferment because of a twisted leg which curtailed his hockey play for two seasons.

Major League Attendance Falls

NEW YORK, Oct. 22.—(AP)—Major league baseball attendance this year fell off 13 per cent and almost the entire net loss was by the three New York clubs.

Altogether big league baseball drew 72,148,606 compared with 81,647,750 in 1942, a decrease of 11,601,144.

The biggest loss of any one club was in Brooklyn, which slumped 300,000 after drawing more than 1,000,000 for three of the previous four years. Yet the Dodgers still topped both leagues with 688,652. The Giants, with a last-place club, fell off 981,000 and together the Giants and Dodgers lost more than the net drop of the entire National League.

The Yankees dropped 300,213 making a combined loss for the three New York clubs of 1,063,709.

Shore Still Has The Will to Win

ST. CATHARINES, Ont. Oct. 22.—(CP)—Eddie Shore will be 41 in November but he said Thursday he could don skates today and earn a playing berth in the National Hockey League.

"The will to win is the greatest factor any kid can have in seeking a pro hockey career," said Shore, now manager of Buffalo Bisons in the American League and one of hockey's all-time greats. "That's the spirit I've never lost."

Interviewed while visiting the N.H.L. training camp of Toronto Maple Leafs, Shore added:

"Hockey is a game not only to the swift, but to the intelligent, and I think I know enough of the game to step into a defense job and make good."

Red Wings Sign Three Rookies For Farm Club

DETROIT, Oct. 22.—(AP)—Detroit Red Wings of the National Hockey League announced Thursday the signing of Rookies Vee Lynn, Roy Glover and Jack O'Hara for assignment to their Indianapolis farm club of the American Hockey League.

Lynn is a 19-year-old Saskatchewan defenseman; Glover, a 17-year-old wing from Fort William, Ont.; and O'Hara a 19-year-old defenseman who also comes from Saskatoon.

"We expect to send most of our new players to Indianapolis," said Adams. "But we may keep four or five of them with the Wings as replacements."

Adams also said he is getting in touch with Hjalur Buller, another defenseman, to talk terms. Buller also played with New York Rangers last winter.

mileage provided him by his coupons.

The investigation followed a statement Kirkwood made in Detroit that he played a bad game with Walter Hagen because he was tired after driving 3,000 miles from Pittsburgh.

Mout Marcy, 5,344 feet high, is the highest elevation in the state of New York.

Coach Claims Halifax Navy Would Make Strong Contender

HALIFAX, Oct. 22.—(CP)—Lieut. C. B. (Tiny) Herman, acting coach for the navy's football team here, has good reason to believe he can build a club to hold its own with any in Canada this season.

Herman used to star with Ottawa Rough Riders before joining the navy.

"On paper, and judging by the material available, I think we have one of the best collections of (football) stars that ever turned out for any football club in Canada," says Lieut. Fred Cook of Action Ont. Navy sports officer here.

"We're hoping to get into the Canadian playoffs if the team shapes up to expectations—and I can see how it can," he says.

Hamilton has contributed nine players, most noted of them probably Lieut. Bob Johnston, a former kicking ace with Tigers and Wildcats. Another star is Mike Hedges, a former star of the Hamilton team. Lieut. John Wright, Al Leonard, Alex Passmore, Charlie Waterman, G. (Scotty) Wright, Dick (Lyle) Pawley and L. (Tony) Anthony.

From Toronto's football front is an even dozen big fighters who hope to lead a berth with the Navy. Among the best-known are Steve Levantes, Pat Reid, Les Ascroft, all formerly of Argonauts, and Johnny Weller, first with Balmy Beach and later with Argos.

Western Canada is represented by such players as Sub-Lt. Stan Teddale of Winnipeg Blue Bombers, Al Daniels, Eddie Kushner, W. Zabalza and Stan Jarocki. Zakaria and Jarocki were well known in collegiate play. Edmonton has four grad players with the Navy: Benny McKeever, Archie Ritchie, Bob Gillies and W. B. Mutch. Two Regiments are Art Beale and Faby Heron.

"We hope to get the chance to show our stuff," says Coach Herman. "There are still some prominent Canadian football stars out there with us yet."

Cellulphane film was produced at Buffalo, N.Y., in 1924.

Corporal Is Charged With Manslaughter In Sailor's Death

SYDNEY, N.S., Oct. 22.—(CP)—A manslaughter charge was laid yesterday against Cpl. Robert O'Neil of Sydney, 21-year-old member of the Provost Corps, in connection with the death of AB. Louis Kelsey, 21, R.C.N.V.M., on Oct. 13. The sailor, from Cheltenham, Sask., died here shortly after an affray outside a dance pavilion on the outskirts of the city. At a coroner's inquest last week, a witness told of seeing Kelsey knocked down by a soldier.

Resistant, Rustless Wheat Is Developed

CALGARY, Oct. 22.—(CP)—One of the greatest forward steps ever taken in western Canadian agriculture, successful development of a savfly-resistant wheat, less wheat, has been announced by the Dominion experimental station at Swift Current, it was revealed in Calgary yesterday.

Recognized as the most serious problem confronting wheat growers in southern Alberta and Saskatchewan, elimination of the savfly is seen as an early possibility as result of the Swift Current development.

NO SEED AVAILABLE
The announcement, made by L. H. Thomson, superintendent of the experimental station, indicated that while no seed is yet available, it is hoped to have seed for the new wheat strain in sufficient quantity to permit distribution in two or three years.

Started by H. J. Kemp, assistant superintendent, 15 years ago, development of the savfly-resistant wheat is credited mainly to Arnold Platt, graduate of the University of Alberta, and his assistant, John Dore, who has worked on the problem for the past seven years.

Platt, who graduated at the Alberta University in 1923, is already recognized as one of the outstanding agricultural scientists in the Dominion.

SUPPLANT METHODS
The new wheat, which has a stalk too tough for the savfly larvae to bore into, is expected to supplant "trap crop" control methods which have been developed in the Lethbridge area but which need a re-direction in productive wheat acreage to be successful.

Calgary agriculturists, commenting on the new wheat, hailed it as the greatest development since introduction of rustless wheat several years ago.

Sweeping Social Economic Reforms Are Sought in Italy
BY RYLAND MORIN
NAPLES, Oct. 22.—(AP)—Partito D'azione (Action Party), whose leaders say it is the largest of six anti-fascist political organizations which existed underground through the 21 years of Mussolini's regime, published yesterday a broad program demanding wide economic and social reforms and a Republican government for Italy.

The party pledged allegiance to Carlo Farini, pre-fascist foreign minister who arrived recently in Italy and is expected in Naples in the next few days. He had been in exile for years.

Canadian Pacific Workers in West Backing Up Loan
WINNIPEG, Oct. 22.—Canadian Pacific Railway western lines on the second day of the Fifth Victory Loan campaign reported a total contribution of \$60,350 covering all four districts of Manitoba, Saskatchewan, Alberta and British Columbia, according to returns to the office of the vice-president at Winnipeg. This is \$400,000 more than at the same period in the fourth loan appeal.

Western shops, Winnipeg, employing 1,900 men maintaining locomotives and cars for western lines, exceeded their quota of \$100,000 on the opening day of the campaign and have reached a figure of \$124,500. Stores department at Western have also gone beyond their objective.

The Switchman

Grant Macdonald, noted Canadian artist whose drawings of the members of Canada's armed forces have aroused widespread interest in art circles throughout the country, has started work on a new series depicting Canadian railway workers engaged in the big task of keeping the country's enormous war traffic moving. He selected for the subject of this sketch Robert Thom, Canadian National Railway switchman. Each day approximately 100,000 cars are handled through Canadian National terminals and as many as 5,000 cars are received and dispatched from a single terminal yard. A small army of yardmen—switchmen, checkers, switch-engine crews, and maintenance men—at work night and day assembling, classifying, and sorting the rolling stock which carries this huge war traffic.

Air Power
by
Maj. Alexander P. de Seversky

What happened in the Gulf of Salerno on September 8 and the following days will go down in history not only as a bold amphibious landing but as an engagement shedding light on the relationship between sea and air power. A grasp of that relationship is invaluable not alone for future campaigns in Europe, but even more so in the Pacific.

The aerial pattern developed in the Battle of Salerno, as I tried to show in the preceding article, is one in which land-based aviation shields a beachhead while the sea power, by allowing them to survive in the face of enemy land-based air power. Under the canopy of this combined land and carrier aviation battleships, invasion barges and other naval units could operate once more than natives, even if provided with their own air arm, can not approach hostile shores adequately defended by land-based aviation—except when these naval forces themselves enjoy the support of land-based aviation.

In the Pacific island-to-island warfare, air canopies can be maintained alone for future campaigns in Europe, but even more so in the Pacific.

The Solomons group, the New Britain group, and even the Marshall and Gilbert Islands are examples of such areas. The distance between the islands of each archipelago are no greater than between Sicily and Naples. Sea power can thus do effective work under a continuous cover of air power. What is more, the targets are relatively weak; they are too small to husband more than limited amounts of aviation and even that must operate at the end of very long supply lines thousands of miles from Japan itself.

Of course, tiny points like Wake in the Pacific Islands, with necessarily limited aerial defenses, can be crushed by overwhelming naval force, even without benefit of land-based aerial help. Unfortunately these points in the vast ocean are no more useful to us, strategically, than they are to the enemy in the present air power age.

Beyond the archipelagos, as we approach enemy strongholds like Borneo, Java, Sumatra, and the Philippines, we are confronted with immense concentrations of hostile air power. The action under these circumstances must resolve itself into aerial warfare, pure and simple, between two great air powers working from well established bases. In such a struggle any inferiority, based on the object of land-based air power, the aircraft carrier, must be unusable.

As to the main target, Japan itself, Salerno teaches us that an attack with only carrier-based aviation is a hopeless undertaking. Without benefit of land-based aviation, the Japanese land-based air power, the aircraft carrier, would be the sole object of the enemy's attack, thus absorbing their own air power for their own defence. Any attempt to protect the carriers with battleships and other escort units would only aggravate the situation, since these would merely be another drain on air power for their own protection, leaving virtually nothing for the job of destruction of the main target.

EVER-SHRINKING BASE.
In addition, we must realize that carrier-borne bombers, being small, can carry only a fraction of the bombing power needed for strategic demolition of a nation. Besides, no matter how extensive the fighter umbrella, some enemy bombers will go through and carriers inevitably would be sent to the bottom, the invaders would consequently be operating from an ever-shrinking base while the defender's base remains constant. All these factors mean that the carrier-based air power would have to be immense beyond the capacity of any country, even the United States, to provide.

The only thing that would make the attack feasible is land-based air power of our own with a range long enough to protect the carrier armada and its naval escorts in Japanese waters, just as was done in the Gulf of Salerno. But why enter this land-based air power to safeguard carriers and their contingents of planes and escort vessels? Why use a stronger aviation force to enable weaker aerial units to do a job? Why invest billions of dollars and valuable manpower to carry out a highly complicated and overlapping improvisation when a fraction of the investment of effort, materials and manpower, put into long-range air power operating from bases already in our hands, can do the same job better?

Once we build such air power for direct action from land bases, Japan will have a taste of bombardment that will make present air action against Germany look like child's play by comparison.

United States War Secretary Reviews Fronts

WASHINGTON, Oct. 22.—(AP)—Henry Stimson, United States war secretary, surveyed the progress of the war at a press conference yesterday, giving this picture by fronts:

IN ITALY
The 8th army is making substantial progress toward Rome, having crossed the Volturno after a week of hard and difficult fighting against reinforced German forces which counter-attacked repeatedly. Evidence has been received that the Germans are sending additional troops and additional fighter aircraft into Italy. In the centre of the Italian peninsula and along the Adriatic coast, units of the 8th army are meeting increased German opposition, but are steadily moving forward. Allied air forces maintain their pressure.

AERIAL BLOWS AT GERMANY
The air offensive against Germany was climaxed by the successful attack on important roller and ball-bearing plants at Schweinfurt. Reconnaissance pictures confirmed the destruction of plants producing 80 to 75 per cent of the ball and roller bearings essential to the manufacture of all German machinery.

IN SOUTHWEST PACIFIC
Allied airmen are reporting a continuing success against the Japanese, notably in two attacks on Rabaul, and Japanese attempts to retaliate by attacking Allied shipping at Oro Bay have been "costly failures." In the last week to 10 days, the Japanese have lost more than 300 planes against an Allied force of about 20. The resurgence of Japanese ground attacks north of Finschhafen is being resisted strongly by Australian troops.

The Japanese have assumed activity to a limited extent in Northern Burma and have made some gains, but their advances have been gained by Chinese troops in the rear.

Keeps His Cook "Despite 'The Cost'"
BALTIMORE, Oct. 22.—(AP)—The meat shortage is bad enough, but to one Baltimore restaurateur the manpower shortage is worse. Dudley C. Short, president of a restaurant concern, not only paid a \$50 fine for a Negro cook convicted of stealing ham and bacon, but put up \$500 bail on a lottery charge. "It's not a case of turning the cook," Short told police, "I must keep my cook."

can be crushed by overwhelming naval force, even without benefit of land-based aerial help. Unfortunately these points in the vast ocean are no more useful to us, strategically, than they are to the enemy in the present air power age.

Beyond the archipelagos, as we approach enemy strongholds like Borneo, Java, Sumatra, and the Philippines, we are confronted with immense concentrations of hostile air power. The action under these circumstances must resolve itself into aerial warfare, pure and simple, between two great air powers working from well established bases. In such a struggle any inferiority, based on the object of land-based air power, the aircraft carrier, must be unusable.

As to the main target, Japan itself, Salerno teaches us that an attack with only carrier-based aviation is a hopeless undertaking. Without benefit of land-based aviation, the Japanese land-based air power, the aircraft carrier, would be the sole object of the enemy's attack, thus absorbing their own air power for their own defence. Any attempt to protect the carriers with battleships and other escort units would only aggravate the situation, since these would merely be another drain on air power for their own protection, leaving virtually nothing for the job of destruction of the main target.

EVER-SHRINKING BASE.
In addition, we must realize that carrier-borne bombers, being small, can carry only a fraction of the bombing power needed for strategic demolition of a nation. Besides, no matter how extensive the fighter umbrella, some enemy bombers will go through and carriers inevitably would be sent to the bottom, the invaders would consequently be operating from an ever-shrinking base while the defender's base remains constant. All these factors mean that the carrier-based air power would have to be immense beyond the capacity of any country, even the United States, to provide.

The only thing that would make the attack feasible is land-based air power of our own with a range long enough to protect the carrier armada and its naval escorts in Japanese waters, just as was done in the Gulf of Salerno. But why enter this land-based air power to safeguard carriers and their contingents of planes and escort vessels? Why use a stronger aviation force to enable weaker aerial units to do a job? Why invest billions of dollars and valuable manpower to carry out a highly complicated and overlapping improvisation when a fraction of the investment of effort, materials and manpower, put into long-range air power operating from bases already in our hands, can do the same job better?

Once we build such air power for direct action from land bases, Japan will have a taste of bombardment that will make present air action against Germany look like child's play by comparison.

2 WAYS TO MAKE PRECIOUS JELL-O and JELL-O PUDDINGS Go Further

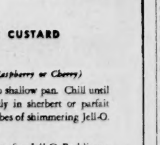

UNFORTUNATELY, due to wartime conditions, no housewife is getting all the Jell-O and Jell-O Puddings she would like to get. But when you are able to get either, you are sure of satisfaction. Use them carefully and make them go as far as possible. Here are two ideas to help you.

JELL-O CUBES WITH CUSTARD
2 cups hot water
1 cup custard sauce
1 package JELL-O (Strawberry, Raspberry or Cherry)
Dissolve Jell-O in hot water. Stir into shallow pan. Chill until firm. Cut in cubes. Pile cubes lightly in sherbert or parfait glasses. Pour custard sauce over the cubes of shimmering Jell-O. Serves 6 to 8.

Easy, isn't it? And here's an idea for Jell-O Puddings:

JELL-O TRIFLE
1 package JELL-O PUDDING (any flavor, but vanilla is specially good)
1 cup heavy cream
1 cup sugar
1 cup fruit
Prepare Jell-O Pudding as directed on the package. Spread top of each square of cake with jam. Place squares of cake in individual dessert dishes. When pudding is cold, pour over cake and chill.
This recipe gives 6 or 7 servings of as delicious a dessert as you ever tasted. You can think the surprising quality of Jell-O Puddings for that full, rich flavor—just smooth, creamy consistency.

JELL-O AND JELL-O Puddings

Chamber Commerce Asks Freezing of Plant Workers

20 Fountain Pens Taken From Store

Twenty fountain pens were missing from Archibald's drug store, 3017 Jasper avenue, James Toller, proprietor, told city police, Thursday. The owner of the store had been called by a police officer who found it insecure in the early hours of the morning.

Entry into the building had been gained by means of the skylight, he removing a pane of glass in a way similar to that used in a previous break-in.

The intruder had lowered himself into the building, coming

down on to the glass showcase, and leaving a muddy imprint there. The showcase, near the front door, was ransacked, although no attempt had been made to open the safe in which was stored some narcotics, said Mr. Toller.

Edmonton Officer Is Killed in Action

Lt. Reginald Dennis O'Donnell, Edmonton, has been killed in action according to a casualty list released Friday at Ottawa. His wife, Dorothy O'Donnell, resides at 9710 140 street, Edmonton.

Britain's total war effort per head of population is greater than that of any other belligerent.

Woman Remaining Under Observation

Mrs. Alberta Hall, now Accredited farmer, brought to Edmonton late Wednesday night in connection with the death by strangulation of eighty-year-old Catherine Vanderford, for observation, was stated as "being still under observation" by R.C.M.P. authorities, Friday.

The little girl, a visitor to the Hall farm, together with her mother, Mrs. Seaman Vanderford of Glendon, was found dead in a bush beside the road, not far from the farm house, about noon, Wednesday, by Miss Beatrice Hall, sister of the woman under observation.

Suggest Experienced Men Be Ordered Out of Jobs Back to Former Labor

Placing of skilled packing plant workers in the same category as coal miners because of a highly serious situation prevailing in the industry due to a shortage of workers, was urged on the Dominion government in a resolution passed at a meeting of the agricultural section of the Edmonton Chamber of Commerce Thursday.

Experienced coal miners, now frozen to their jobs and in addition may be ordered to leave other work they have been doing and return to the mines.

The meeting was under the chairmanship of J. Paul. In addition to chamber members, representatives of selective service, provincial government departments of industry and agriculture, and packing house union officials, also attended.

Packing houses are utterly unable to absorb the volume of receipts as a result of the serious labor shortage, it was contended. There is almost no "skilled labor" at all available in the packing houses, it was stated.

The country faces heavy material loss unless steps are taken to remedy the situation at once, the resolution stated. Copies of the resolution were sent to both the federal minister of agriculture and the Dominion minister of labor.

Kiwanis Club Plans Service Of Dedication

At the request of the National War Finance Committee at Ottawa, service clubs across Canada are being asked to associate themselves in similar meetings to be held in the various cities from coast to coast the purpose of which is designed to give a sincere review of Canada's war effort and a re-dedication to the high purpose of winning this war.

The Edmonton Kiwanis Club in co-operation with the National War Finance Committee is planning a meeting of outstanding interest for all its members on Monday night at the Macdonald hotel at 12:15 p.m. "Canada at War" will be the subject chosen by Wing Commander E. G. Macpherson, commanding officer of No. 4 Initial Training School R.C.A.F., Edmonton, guest speaker.

The Hon. Rev. W. F. Barfoot, Bishop of Edmonton and prominent Kiwanian will conduct the ceremony which combines a Memorial for the Fallen, with a re-dedication of the club to the war effort.

Others who will figure in this meeting are representatives of the three armed services, soloists Miss Bernice McNeil accompanied by Mrs. Joyce Sloan and the National War Finance Committee. Arrangements for the meeting are in the hands of Capt. T. W. Campbell, M.C., Ed. McFarlane and chairman Del Mould.

Aircraft Repair Will Assist Loan

Employees of Aircraft Repair Limited start after a minimum Fifth Victory Loan objective of \$200,000 Monday, it was announced Friday by A. A. Macdonald, secretary-treasurer of the firm, and chairman of the plan's loan committee. Alex Cunningham, engine shop supervisor, heads the bond sales staff.

Loan drive gets under way in conjunction with the 1000th plane 1500 engine commemorative ceremony planned for 2:45 p.m. in front of the organization's No. 1 plant. Public will be admitted to the function through the plant's main gate after 3:30 p.m.

Two mass meetings for all employees are also planned for Monday. To be held in the plant's cafeteria, day and office staffs will attend at 2 p.m., while night workers will be at the 4:15 gathering. Speakers at the first rally will be Ray E. Staples, general chairman of the Edmonton campaign, while Robert V. Price, chairman of the payroll section, will address the second group. Alex Cunningham will be the band of No. 1's, and the A.R.L. club under the direction of H. Turner.

In the last loan, A.R.L. employees subscribed \$170,000 or 142.16 per cent of their quota.

Emergency Meeting

OF ACACIA LODGE, No. 11, A.F. & A.M.

will be held in Acacia Hall at 1:00 p.m. on Saturday, October 23, 1943, for the purpose of attending the funeral of our late brother P. E. Brown, brother of sister Lodges invited.

IF AN OBJECT PIERCES THE BRAIN, IT DOES NOT ALWAYS CAUSE DEATH

It has long been believed that if anything enters the brain from without, it will cause instant death. However modern surgery and science have exploded this idea, for surgeons have cut away pieces of human brains, and the patients continued to live. Objects have been lodged in the brain for years in other people. And Dr. Edmund Jacobson, of the University of Chicago, has experimented by pushing silver wires into the brain of a man three times to measure the flow of electrical current in the brain during thought and the ma-

be had by sending a 4-cent stamp
self-addressed envelope with your
request to Myrtle Meyer Eldred
care of this newspaper.

appeared not to be harmed in any way by the experiment. Of course, some parts of the brain are much more vital than others; and such experiments could be done only by trained experts.

Unveil Plaque

THETFORD, England, Oct. 22.—(CP)—A bronze plaque presented by Americans stationed in England

was unveiled here yesterday at the birthplace of Thomas Paine (1737-1809), Pennsylvania editor who was a leader of the Independence movement in the American Revolution. The plaque said Paine, a "champion of the rights of the common man . . . Lives on through ideals and principles of the democratic world for which we fight today."

More Than 15,000 Homes Built for Canadian War Workers in Congested Areas Good Citizenship Stimulated by Cosy Homes, Gardens, Community Activities

From Halifax to Vancouver, in cities large and small, congested by wartime industrial expansion, thousands of homes have been built for workers by a Crown firm,

Wartime Housing Limited, the largest housing agency Canada has ever known. This company administers a program which will provide 17,500 homes, 16 hostels,

69 staff houses, 16 bunk houses, 18 dining halls, 27 schools, and 25 other special buildings, at a cost of more than \$80,000,000, sufficient to accommodate the

population of Windsor, Ont. Program will be completed by year's end. Shown above is beautiful Burnham Point at Peterborough, one of many similar centres created.

A staff house goes up in Halifax, where nearly 2,000 homes have been built. Vast scheme is more than a real estate undertaking. Its monthly magazine,

Community councillors, other media, promote Red Cross, A.R.P., boy scouts, Victory gardening, first aid, war savings, hobby clubs, many other worthy endeavours.

In Vancouver, Wartime Housing has erected 750 homes. Men are shown laying an asphalt walk. Company not only builds homes and other living accommodations

in cities, but virtually creates new towns in the wilderness, complete with streets, sidewalks, sewer and water systems. Rents are between \$22 and \$30.

Roy Parker is one of many thousands who have found comfortable homes in Wartime Housing projects. Here he is at work in Geneco gun plant, at Peterborough.

The Parker home is a bright and pleasant residence. Rosemary, 14, Jack, 12, and Mrs. Parker keep place trim. Two years ago Parker closed his summer resort

at Keswick, on Lake Simcoe, came to Peterborough to get into war work. He roamed the streets for three months to find a home and move his family in from Keswick.

Wartime Housing finally came to the rescue with this cosy, six-room bungalow. Picture shows Parker in his well-furnished living-room, with daughter Rosemary.

Wartime Housing tries to keep its tenants happy. It sponsors numerous community activities: sports, dances, health service, home improvement, baby clinics, etc.

Lovely old Dixon farm house is now Community centre of one of Peterborough's four housing projects. Mrs. Parker and Rosemary visit branch of public library.

Red Cross sewing circle is very active. Mrs. Parker is a member. At right, Mrs. M. S. Thompson, Local Wartime Housing Community Counsellor and group librarian.

Parker knocks down a few in bowling alley of huge Peterborough staff house for men workers. It offers best in comfort, meals and recreational facilities.
